

We've just launched our first-ever photo contest, and I'd be grateful if you'd share it with your group. There's a ready-to-paste blurb at the bottom to make it easy. Your members are also welcome to come shoot at Crown Point anytime.

Crown Point sits on 115 acres. The land has been farmed since 1854 and certified organic since 1994, and it holds wetlands, woodlands, native prairie, meadows, and working organic gardens. The grounds are open dawn to dusk, so your members can catch first light over the prairie or the last of the evening glow in the meadows. Fall is when it really comes alive, which is why we picked this season for our first contest.

Crown Point in Focus: the basics

- Theme: "Change"
- Free to enter, up to three photos per person
- Entries open now through November 8
- Winners chosen by the community in a public vote, Nov 9–15
- Winning photos printed and displayed at Crown Point through the holidays

Details and entry: <https://www.crownpointecology.org/in-focus>
